THE Subscriber desires to inform the public that he is prepared to furnish to any one that wants such a thing, the BEST COTTON GIN that is made anywhere, and he is still making improvements on his former Gins, and has no fear in challenging any other Gin Factory to produce an equal in performance or speed.— With good, dry Cotton, the roll in the gin cannot be broken nor made to spew over—which cannot be said of any other gin. His gin also has advantages and improvements which no other can have, as these have been regularly patented,—such as the exclusion of rats from the brush, &c., by the peculiar construction of the gin, which no other has a right to make. He also makes THRASHERS of different construction to suit the wish of any one; the spike beater combined, the smooth drum with fingers and no spikes and different other patterns. He has also the right of the celebrated Garlington Thrushers which are very much admired by every one that has seen or tried them.

Any one wanting a superior Gin or Thrusher can be supplied by sending his order to me at Chester C. H., So. Ca. Work will be carefully shipped to any place desired.
